Summary

.NET Backend Developer with hands-on experience building RESTful APIs using C#, ASP.NET Core, EF Core, and SQL. Skilled in designing layered backend systems using **Onion** and **N-Tier Architecture**, **CQRS** with MediatR, Repository Pattern, JWT authentication, role-based authorization, and data validation. Delivered two production-ready APIs with 82+ passing unit tests through the Job Simulation Bootcamp at Upskilling EG.

Education

Bachelor of Engineering in Electronics and Communications Engineering Mansoura University 2020 – 2025

Activities and Societies:

- **Multimedia Director | Luminous MU:** Recruited 30+ members Jan 2023 – Jul 2024 [Sessions and Workshops](#)
 - **Media Sub-team Leader | IEEE Mansoura:** Led visual assets for 2 major events Jan 2022 – Dec 2023 [Certificate](#)
-

Technical Skills

Languages: C#, C++, SQL, SQL Server, HTML.

Frameworks & Libraries: ASP.NET Core, EF Core, ADO.NET, LINQ, MediatR, FluentValidation.

Architecture & Patterns: OOP, SOLID, Design Patterns, Onion Architecture, 3-Tier, Repository Pattern, CQRS, MVC.

Tools & Security: JWT, Refresh Tokens, Role-Based Authorization, NUnit, Moq, FluentAssertions, Serilog, Seq, GitHub, Postman, Agile, Docker.

Experience

Backend .NET Developer | Job Simulation Bootcamp (JSB) — Upskilling EG Jan 2026 – April 2026

- Built Hotel Reservation System Web API using ASP.NET Core, Onion Architecture, CQRS, MediatR, and JWT authentication.
 - Developed Examination System API with role-based authorization, AutoMapper, FluentValidation, and centralized logging (Serilog/Seq).
 - Wrote 82+ unit tests using NUnit, Moq, and FluentAssertions covering core business logic and edge cases.
-

Projects

- **Hotel Reservation System Web API** May 2026 [Project Link](#)
 - Hotel Reservation API to streamline booking operations and manage room availability
 - Tech Stack: Web API, ASP.NET Core, EF Core, SQL Server, CQRS, MediatR, JWT.
 - Developed using Onion Architecture and CQRS with MediatR, Repository Pattern, and AutoMapper.
 - Implemented JWT, refresh tokens, custom authorization filters, error handling, and transaction middleware.
 - Created 82 passing unit tests with NUnit, Moq, and FluentAssertions.
- **Examination System Web API** Apr 2026 [Project Link](#)
 - Examination System API for creating random, managing, and evaluating student examinations.
 - Tech Stack: Web API, ASP.NET Core, EF Core, SQL Server, Identity, JWT, AutoMapper, FluentValidation.
 - Implemented JWT authentication and role-based authorization using ASP.NET Core.
 - Used N-Tier Architecture, Repository Pattern, and AutoMapper, and DTO mapping.
 - Created passing unit tests with NUnit, Moq, and implemented centralized logging using Serilog and Seq.

Certificates

Practical Prompt Engineering [Frontend Masters] Certificate	Apr 2026
Solid Principles [Programming Advice] Certificate	Mar 2026
Backend Development , Foundations, Problem Solving (C++&C# & SQL) [Programming Advice] Certificate	Oct 2025
Huawei Certified ICT Associate – Datacom Certificate	Aug 2024

Languages

Arabic: Native **English:** good
